

## Credit Unions Ready to Support Members Affected by Federal Layoffs

Credit unions are offering financial assistance and payment flexibility for members affected by changes to their federal employment status. Members are encouraged to contact their credit union directly to determine eligibility and to find out about available relief programs, which may include:

- Penalty-free share certificate withdrawals
- Payment deferrals on existing loans
- Line of credit increases
- Loan adjustments on a case-by-case basis
- Auto loan refinancing
- Increased credit card and credit line limits

Additionally, many credit unions provide free financial counseling. This can be a valuable resource to help members plan for the future and navigate any financial challenges they may be facing.
